PROGRAMME FOR THE
Maiden Virtual International Conference
of AccexGate Global

ECONOMIC DISRUPTION AND GLOBAL IMPACT OF COVID-19 ON SOCIETY
(VICED-GI-COVID-19)

S U B - T H E M E S:

Potentials of COVID-19 for Economic Greatness in:
Agriculture, Agribusiness, Management, Marketing, Accounting, Banking and Finance,
Logistics and Transport, Politics, Security, Sport, Tourism, Globalization, Education, Sciences,
Social Sciences and Humanities, Arts, Veterinary Sciences, Health and Medicine, Information
Technology, etc.

DAY 1: PRESENTATION BY KEY AND GUEST SPEAKERS

Time: Aug 27, 2020 10:00 AM West Central Africa

1. INTRODUCTION OF DIGNITARIES
2. OPENING REMARK BY THE CHAIRMAN ACCEXGATE GLOBAL
3. WELCOME ADDRESS BY THE CHAIRMAN C.O.C.
4. KEYNOTE SPEAKERS
5. GUEST SPEAKERS
6. INTRODUCING THE BOOK OF ABSTRACT
7. PAPER PRESENTATION BY ATTENDEES
8. CLOSING REMARK BY CHAIRMAN C.O.C.

DAY 2: PLENARY SESSION – PAPER PRESENTATION

Time: Aug 28, 2020 10:00 AM West Central Africa

1. EDUCATION PAPERS
2. MANAGEMENT, FINANCE, MARKETING, ENTREPRENEURSHIP, BUSINESS ADMINISTRATION, PUBLIC ADMINISTRATION
3. ARTS, HUMANITIES, LAW, INTERNATIONAL RELATIONS
4. MATHEMATICS, ENGINEERING, ICT, PURE AND APPLIED SCIENCES
5. AGRICULTURE, AGRIBUSINESS, FOOD SCIENCE AND TECHNOLOGY
6. OTHERS
7. DEPARTURE

KEY SPEAKER

Prof. Maduike, C. O.Ezeibe, Professor of Veterinary Medicine

Maduike , C. O. Ezeibe is a Nigerian. He is a professor of Veterinary medicine in the Department of Veterinary Medicine, Michael Okpara University of Agriculture, Umudike-Nigeria and a graduate of University of Nigeria, Nsukka from where he obtained Doctor of Veterinary Medicine Degree(DVM), M.Sc and Ph.D . He is also a fellow of College of Veterinary Surgeons, Nigeria (FCVSN). Prof Ezeibe has won many academic prizes, including: best student in Veterinary microbiology, pathology, public health and jurisprudence and in Veterinary clinics. In 2011 he won Nigerian government`s presidential standing committee award, for invention of Medicinal synthetic Aluminum – magnesium silicate (Nanoparticles)- a broad-spectrum antiviral medicine which has proved effective against Avian influenza virus, Measles virus, Newcastle disease virus, Peste des petits ruminants virus, Infectious bursal disease virus, Egg drop syndrome 76 virus, Avian pox virus and Canine parvovirus. For virology 2015, Professor Ezeibe shall discuss: Clinical trial of antiretroviral effects of the Medicinal synthetic Aluminum – magnesium silicate (Nanoparticles).

GUEST SPEAKER

Prof. Richard Mayungbe, Professor of Finance and Forensics

Prof. Richard Mayungbe attended the School of Accountancy & Business Studies and Canterbury University, UK, Obafemi Awolowo University Ile-Ife, University of Calabar, Ladoke Akintola University of Technology, Ogbomosho, all in Nigeria and Gordon University, Florida. He is the Chief Executive of TSI Limited, (www.tsigroups.com) a research and training outfit with head office in Lagos and branches along the ECOWAS, Asia, Europe and America. He is also the Managing Partner of Richard & Co. Forensic Accountants with offices across Africa.

OPENING REMARKS BY THE CHAIRMAN, C.O.C. OF VICED-GI-COVID-19

The world is facing an unprecedented test. And this is the moment of truth. Hundreds of thousands of people are falling seriously ill from COVID-19, and the disease is spreading exponentially in many places. Societies are in turmoil and economies are in a nose-dive. The International Monetary Fund has reassessed the prospect for growth for 2020 and 2021, declaring that we have entered a recession – as bad as or worse than in 2009. We must respond decisively, innovatively and together to suppress the spread of the virus and address the socio-economic devastation that COVID-19 is causing in all regions. The magnitude of the response must match the scale of the crisis – large-scale, coordinated and comprehensive, with country and international responses being guided by the World Health Organization. And it must be multilateral, with countries showing solidarity to the most vulnerable communities and nations. The message of the conference today is clear: Economic Disruption and Global Impact of COVID-19 on Society (VICED-GI-COVID-19). It is a call to action.

First, for an immediate coordinated health response to suppress transmission and end the pandemic. A response that scales up health capacity for testing, tracing, quarantine and treatment, while keeping first responders safe, combined with measures to restrict movement and contact. A response that delivers universal access to treatment and vaccines, when they are ready. It is essential that developed countries immediately assist those less developed to bolster their health systems and their response capacity to stop transmission.

Second, we must tackle the devastating social and economic dimensions of this crisis, with a focus on the most affected: women, older persons, youth, low-wage workers, small and medium enterprises, the informal sector and vulnerable groups, especially those in humanitarian and conflict settings. We must see countries not only united to beat the virus but also to tackle its profound consequences. That means designing fiscal and monetary policies able to support the direct provision of resources to support workers and households, the provision of health and unemployment insurance, scaled up social protection, and support to businesses to prevent bankruptcies and massive job losses. What is needed is a large-scale, coordinated and comprehensive multilateral response amounting to at least 10 per cent of global GDP. Developed countries can do it by themselves, and some are indeed doing so. But we must massively increase the resources available to the developing world by expanding the capacity of the International Monetary Fund, namely through the issuance of special drawing rights, and the other international financial institutions to rapidly inject resources into the countries that need them. Coordinated swaps among central banks can also bring liquidity to emerging economies. Debt alleviation must be a priority – including immediate waivers on interest payments for 2020.

Countries of the world need to be fully mobilized, providing guidance for global efforts, supporting country responses and placing our supply chains at the world's disposal. Nations should establish Loan Schemes to SMEs revitalization of economies and recovery from the socio-economic shock.

Finally, when we get past this crisis – which we will – we will face a choice. We can go back to the world as it was before or deal decisively with those issues that make us all unnecessarily vulnerable to crises. Everything we do during and after this crisis must be with a strong focus on building more equal, inclusive and sustainable economies and societies that are more resilient in the face of pandemics, climate change, and the many other global challenges we face in the world.

Thank you.

Armstrong E. Ogidi, Ph.D
Chairman, C.O.C.
